Final Project Organization and Activity Requirements
EC327 Introduction to Software Engineering, Fall 2021

GitHub Organization

- **README File**
  - Team Name, Member Names, Member Emails
  - 1 paragraph overview
  - 1 paragraph on how to "build" your project
  - Link to your YouTube video
  - Anything else you feel is relevant
- **"src" Folder**
  - All your source code
    - You can sub-organize this directory however you see fit
  - **DO NOT** put executables here
  - Makefiles (or other related BUILD tools) would be great as well
- **"doc" Folder**
  - ProjectTimeline.doc
  - ProjectDocumentation.doc
  - StatementOfWork.doc
  - ProjectArchitecture.ppt
- **"misc" Folder**
  - Anything that does not make sense in the other folders
  - Don't just dump a bunch of stuff here that is not useful long term

GitHub Activity Requirements

- 1 commit per project team member
- 1 branch per project
- 1 push per project
- More than 7 total commits
